CLASSIFICATION OF SERVICE

Metering for Sewer Billing

1. All sewage discharged into the District's sewer system shall be billed on the sewer rate as approved by the Public Service Commission based on the gallons of water provided through the water meter.
2. When two water meters are required by the District to measure the high and low flows for one connection, the sewer bill shall be based on the combined volume of water used through both meters with the minimum bill and bill computation based on the smallest meter.

SECTION 9 (1)BY: Stephan D. Bell
SECRETARY OF THE COMMISSION**WASTEWATER VOLUME ADJUSTMENT**

SUBJECT: Wastewater Volume Adjustment

1. A wastewater adjustment of the volume billed for residential and commercial buildings may be made upon the customer's request whenever a leak occurs provided the following conditions are met:
 - A. The customer requests the adjustment within two months from the time the customer is billed for the water usage.
 - B. The adjustment will be made considering an average of the three months previous billing. In cases where there is not three months previous billing to average the bill, it may be adjusted utilizing an average of future consumption.
 - C. One month's bill is all that will be eligible to be adjusted per year.
 - D. The customer pays the service investigation charge wherein verification is made that a leak has been repaired and the water did not go into the sewer system.
2. When a yard is to be sprinkled with water on a regular basis, the customer shall make application for a separate water meter to be utilized for this purpose. This meter will not have any plumbing connected to the wastewater system and will not be billed wastewater charges.

A wastewater adjustment of the volume billed for residential customers may be made upon the customer's request whenever water is used for temporarily sprinkling yards provided the following conditions are met:

- A. The customer requests the adjustment within two months from the time the customer is billed for the water usage.
- B. The bill has increased above the past three months' average prior to sprinkling by at least 10,000 gallons. In cases of a new home with no occupancy and there is not three months usage to average the bill, it may be adjusted utilizing an estimated usage of 2,000 gallons. In a newly occupied home, the bill may be adjusted utilizing an average of future consumption.

- C. The customer pays the service investigation charge for each monthly adjustment wherein verification is made that water has been used for sprinkling the yard and the water did not go into the sewer system.
- D. Adjustments of this type shall be limited to three months per year.
3. A wastewater adjustment of the volume billed for residential customers may be made upon the customer's request whenever water is used for filling swimming pools provided the following conditions are met:
- A. The customer requests the adjustment within two months from the time the customer is billed for the water usage.
- B. The bill has increased above the past three months' average by at least 10,000 gallons. In cases where there is not three months' usage to average the bill, it may be adjusted utilizing an estimated usage of 10,000 gallons.
- C. The customer pays the service investigation charge wherein verification is made that the water has been used for filling a swimming pool and the water did not go into the sewer system.
- D. Adjustments of this type shall be limited to one time per year.

RULES AND REGULATIONS

The following revision of policy is prescribed for the customers in the area served by Warren County Water District-Sewer Division (District). All other rates and charges not specifically mentioned herein shall remain the same as those in effect under authority of this Commission prior to the effective date of this Order.

A deposit or suitable guarantee equal to approximately twice the District's average monthly water bill will be required of each classification of customers before water service is supplied. The deposit may be waived for those customers who apply for and pay the Contribution In Aid of Construction Fee based on the size of metering equipment at the location. The classification of customers is established as follows: 1) residential, 2) industrial, 3) commercial and all others.

Service will be refused or discontinued for failure to pay the requested deposit. Interest as prescribed by KRS 278.460 or other applicable KRS's will be paid annually by credit to the customer's water bill on the anniversary date (month) of the customer's deposit, except no credit may be made if the customer's water bill is delinquent on the anniversary date of the deposit.

The District may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit and any interest earned will be credited to the water bills owed to the District by the customer with any remainder refunded to the customer.

RULES AND REGULATIONS

1. Additional Rules and Regulations. These Rules and Regulations are in addition to the rules of the Kentucky Public Service Commission.
2. Application for Service. Each prospective customer desiring sewer service may be required to sign the District's standard Application for Sewer Service before service is supplied by the District.
3. Discontinuance of Service by District. District may refuse to connect or may discontinue service for the violation of any of its Rules and Regulations, or for violation of any of the provisions of the Schedule of Rates and Charges, or of the application of customer or contract with customer. District may discontinue service to customer for the theft of water or the appearance of water theft devices on premises of customer. The discontinuance of service by District for any causes as stated in this rule does not release customer from his obligation to District for the payment of minimum bills as specified in application of customer or contract with customer.
4. Billing. Bills will be rendered monthly and shall be paid within ten days from date of bill at the office of District. Failure to receive bill will not release customer from payment obligations. Should bills not be paid as above, District may at any time thereafter, upon five days' written notice to customer, discontinue service. Bills paid on or before the final date of payment shall be payable at the net rates, but thereafter the gross rates shall apply as provided in the Schedule of Rates and Charges. Should the final date for payment of the bill at the net rates fall on a Sunday or holiday, the business day next following the final date will be held as a day of grace for delivery of payment.
5. Deposit. A deposit or suitable guarantee equal to approximately twice the average monthly sewer bill may be required of any customer before sewer or water service is supplied. The District may at its option return the deposit to the customer after one year. Upon termination of service, deposit may be applied by the District against any unpaid bills of the customer, and if any balance remains after such application is made, said balance shall be refunded to customer. C 7-94
6. Point of Delivery. The point of delivery is the point, as designed by the District, on customer's premises where the District's sewer is tied to the customer's service line. All sewer lines beyond this point of delivery shall be provided and maintained by the customer at no expense to the District.
7. Termination of Contract by Customer. Customers who have fulfilled their contract terms and wish to discontinue service must give at least three (3) days' written notice to that effect, unless contract specified otherwise. Notice to discontinue

service prior to expiration of contract term will not relieve customer from any minimum or guaranteed payment under any contract or rate.

8. Applicant's Service Line. It is understood that the applicant will at his own expense pay for the actual physical connection from his line to the District's Y-branch. The applicant's service line is to be installed only by a plumber licensed by the Kentucky State Board of Health and the work must be inspected by the authorized plumbing inspector and an authorized representative of the District before the line is backfilled. The customer and/or installer making a connection to the sewer shall hold the District harmless from any loss or damage that may directly or indirectly be occasioned by connecting to the District's sewer. A test tee must be installed by the applicant at the point of connecting to the District's sanitary sewer.
9. Right of Access. The applicant must agree to permit the District to lay, maintain, repair, or remove such sewer line which is the property of the District located on the applicant's property with the right of ingress and egress over applicant's property. The District's duly authorized representative and/or other duly authorized employee of the State Health Department bearing proper credentials and identification shall be permitted to enter upon all properties for the purpose of inspection, observation, measurement, sampling, and testing, in accordance with the provisions of these Rules and Regulations.
10. Sewage Metering. All of the applicant's water usage discharged into the District's sewer must be metered through a water or sewage meter of the District or the Water-Sewer and Sanitation Commission. No free sewer service shall be allowed or permitted.
11. Connection to Sanitary Sewer. No connection to the sanitary sewer mains shall be made except by an employee of the District. The Y-branch for the connection will be installed correctly. The applicant will be responsible for any damage to the sewer main in making a service line connection to the Y-branch. All clay pipe joints must be wedge lock or ring type gaskets. Cast iron joints must be lead or slip joints.
12. Service Line Material. Only approved cast iron and clay pipe will be permitted for sewer service lines. No bituminous fiber will be permitted for any sewer service lines.
13. Acceptable Sewage. Only domestic sewage is allowed to be discharged into the sewer. Storm drains, roof drains, surface flow, etc. shall not be permitted to be discharged into the sewer.

RULES AND REGULATIONS

14. Service Line Test. All service lines from the Y-branch must be tested and witnessed by an authorized agent or employee of the District. Normally smoke test or water exfiltration test will be required.
15. Grease and Oil Traps. Service station, restaurants, and others who discharge grease and oil shall be required to install approved grease and oil traps or other acceptable methods of removal before the sewage enters the sanitary sewer system.
16. Interruption of Service. The District will use reasonable diligence in supplying water and sewer service, but shall not be liable for breach of contract in the event of, or for loss, injury, or damage to persons or property resulting from interruptions in service, excessive or inadequate water pressure, sewage stop-ups, or otherwise unsatisfactory service, whether or not caused by negligence.
17. Additional Load. The service connection supplied by the District for each customer has a definite capacity, and no addition to the equipment or load connected thereto will be allowed except by consent of the District. Failure to give notice of additions or changes in load, and to obtain the District's consent for same, shall render the customer liable for any damage to any of the District's lines or equipment caused by the additional or changed installation.
18. Notice of Trouble. Customer shall notify the District immediately should the service be unsatisfactory for any reason, or should there be any defects, trouble, or accidents affecting the supply of water or sewage. Such notices, if verbal, should be confirmed in writing.
19. Nonstandard Service. Customer shall pay the cost of any special installation necessary to meet his peculiar requirements for service other than standard sewer tap.
20. Scope. This Schedule of Rules and Regulations is a part of all contracts for receiving sewer service from the District, and applies to all service received from the District, whether the service is based upon contract, agreement, signed application or otherwise. A copy of this schedule, together with a copy of the District's Schedule of Rates and Charges, shall be kept open to inspection at the office of the District.
21. Manhole Cover Removal. No person shall cause to be discharged or remove any manhole cover to permit any storm water, ground water, roof runoff, sub-surface drainage, cooling water, or unpolluted industrial process water into the sanitary sewer.

RULES AND REGULATIONS

22. Applicant's Liability. No person shall discharge or cause to be discharged into the sewer, any harmful waters or wastes, whether liquid, solid, or gas, capable of causing obstruction to the flow in sewers, damage or hazard to structures, equipment, and personnel of the sewage works, or other interferences with the proper operation of the sewage works. Applicant who discharges or causes to be discharged, any harmful waters or wastes into the sewer shall be held liable for ensuing damages.
23. Industrial Sewage. Prior to the admission into the sanitary sewers of any waters or wastes having harmful or objectionable characteristics shall be reviewed and approved by the District. The customer shall provide at his expense such preliminary treatment as may be necessary to treat these wastes prior to discharge to the sanitary sewer. Plans, specifications, and any other pertinent information relating to the proposed preliminary treatment facilities shall be submitted for the approval of the District and the State Board of Health, and no construction of such facilities shall be commenced until said approval is obtained in writing. Where preliminary treatment facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the customer at his expense.
24. Industrial Sewage Chemical Test. When required by the District, the customer who treats industrial wastes shall install and maintain at his expense a suitable control manhole in the sewer service line to facilitate observation, sampling, and measurement of the wastes. All measurements, tests, and analyses of the characteristics of waters and wastes shall be determined in accordance with "Standard Methods for the Examination of Water and Sewage," and shall be determined at the control manhole and upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the District's sanitary sewer to the point at which the customer's sewer service line is connected.
25. Damage to District's Sewer System. No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the District's sewage works. Any person violating this provision shall be subject to immediate arrest and discontinuation of water and/or sewer services.
26. Sanitary Sewer Extension. If no sewer is available at the point service is desired, the applicant can pay for extending the sewer main in accordance with the construction specifications of the District. The applicant must obtain the District's written approval of all sewer plans before any construction is performed. The District will perform construction inspection while all work is being performed. No connection to the sewer will be made along the extended section of sewer until all engineering,

inspection, and connect fee charges are paid in full. The applicant shall pay all construction cost and design engineering in addition to reimbursing the District for inspection cost.

27. Approval of Extension. All plans shall meet the District's designated standards and be approved by the District before any work is performed. Also, plans and specifications shall be approved by the State Board of Health, and all other local, state, or federal agencies having jurisdiction over the work to be performed.
28. Septic Tank Disconnection. No septic tanks shall be tied into a sewer service line connected to the sanitary sewer.
29. Inspection. District shall have the right, but shall not be obligated, to inspect any installation before sewer is introduced or at any later time, and reserves the right to reject any sewer construction not in accordance with District's standards; but such inspection or failure to inspect or reject shall not render District liable or responsible for any loss or damage resulting from defects in the installation, or from violation of District's rules, or from accidents which may occur upon applicant's premises.
30. Customer's Responsibility for District's Property. All meters, service connections, and other equipment furnished by District shall be, and remain, the property of District. Applicant shall provide a space for and exercise the proper care to protect the property of District on its premises; and, in the event of loss or damage to District's property arising from neglect of customer to care for same, the cost of the necessary repairs or replacements shall be paid for by applicant.
31. Sewer Fluctuations Caused by Applicant. Sewage service must not be used in such a manner as to cause unusual fluctuations or disturbances to District's system. District may require applicant, at his own expense, to install suitable apparatus which will reasonably limit such fluctuations.
32. Relocation of Sewer Facilities. District may, at the request of customer, relocate or change existing District-owned equipment. Applicant shall reimburse District for such changes at actual cost including appropriate overhead.
33. Revisions. These Rules and Regulations may be revised, amended, supplemented, or otherwise changed from time to time without notice. Such changes, when effective, shall have the same force as the present Rules and Regulations.

CHARGES FOR NON-RECURRING SERVICESPURSUANT TO 807 KAR 5:011,
SECTION 9 (1)

SUBJECT: Charges for Special Non-recurring Services

BY: Stephan D. Bell
SECRETARY OF THE COMMISSION

Regular working hours are 7:30 a.m. - 3:00 p.m. Monday - Friday (excluding holidays.) After hours charge is any other time.

These charges will be assessed when a sewer customer obtains his water service from another water system or the special non-recurring service is related to the sewer service only.

The following charges for special non-recurring services shall be made:

1. Service Connection Charge. A charge of \$25 shall be made for all service reconnections made during regular working hours, except that there shall be no connection charge made for service on the original installation of facilities. If service is reconnected other than during regular working hours, the charge shall be \$65.
2. Delinquent Service Charge. A charge of \$25.00 shall be made for a trip to collect a delinquent account or terminate service. Where a customer's service has been discontinued for nonpayment of bills and the delinquent customer has paid his or her outstanding bills for service and requested reconnection, the water district shall assess a service connection charge in addition to a delinquent service charge to re-establish water service.
3. Meter Reading Recheck Charge. A charge of \$25.00 shall be made for a trip to recheck a meter reading when the customer requests the meter to be rechecked for a correct reading and the meter was not misread.

Issued by authority of an Order of the Public Service Commission of Kentucky in Case No. 1999-373
dated December 27, 1999.

4. Service Investigation Charge. A charge of \$25.00 per trip shall be made for service investigation during regular working hours if interruption of service or service problem is associated with the customers own plumbing facilities and beyond the Water Districts delivery point and is not caused by failure of District's facilities. The charge for investigation after working hours will be \$65.00 per trip. Any maintenance and repair of facilities beyond District's delivery point is the responsibility of the customer.
5. Investigation Charge. When an investigation of facilities on customers' premises reveals unauthorized use of sewer system, an investigation fee of \$75.00 shall be charged. The actual cost of repairing damage and correcting the improper service connection, if any shall be charged and the customers bill shall be paid for the amount of service rendered.
6. Return Check Charge. When a check, including auto pay, is accepted for payment of a bill and the check is not honored by the financial institution, a return check charge \$25.00 shall be charged.
7. Service Line Inspection Charges. A charge of \$50.00 shall be made to inspect a customers service line from the point of use by the customer to the Water District point of acceptance of waste. The service line inspection charge may be waived if confirmation is received from the Kentucky State Plumbing Inspector that a state plumbing permit has been obtained and the State Plumbing Inspector will inspect the service line.

dated December 27, 1999.

FOR Warren CountyP.S.C. Ky. No. 1Original Sheet No. 8

Cancelling P.S.C. Ky. No. _____

Sheet No. _____

Warren County Water District-Sewer DivisionRULES AND REGULATIONS

SUBJECT: Charges for Special Services

The following charges for special services shall be made:

1. Contribution in Aid of Construction. The established sewer contribution fee is based on the size water meter installed. The following is the schedule of connect fees:

5/8	- inch meter	\$150.00
3/4	- inch meter	160.00
1	- inch meter	190.00
1 1/2	- inch meter	200.00
2	- inch meter	250.00
3	- inch meter	300.00
4	- inch meter	300.00

In addition, the applicant will be required to reimburse the District if an additional manhole is needed. The District shall make the manhole determination. Sewer contribution for water meter installations above 4 inches will be handled on an individual basis. Water meters above 4 inches are normally used by large commercial or industrial users, and sewer connect fee will be based on an anticipated amount of sewage returned to the sewer system. Meters in excess of 4 inches may require sewage metering equipment. If sewage metering equipment is required, the cost of the equipment and the installation cost will be collected from the applicant in lieu of a connect fee.

2. Service Connection Charge. A charge of \$2 shall be made for all service reconnections made during regular working hours, except that there shall be no connection charge made for service on the original installation of facilities, or if the applicant is also a water district customer and pays a connect charge for water service. If service is reconnected other than during regular working hours, the charge shall be \$12.
3. Delinquent Service Charge. A charge of \$5 shall be made for a trip to disconnect a delinquent account. A reconnection charge of \$2 shall be made if reconnected during regular working hours. If reconnected after regular working hours, the charge shall be \$12.

RULES AND REGULATIONS

4. Meter Test Requests. Upon written request on District form and payment of \$7.50, a consumer may have his meter tested provided request by the consumer is not more frequent than once each twelve months. If such test shows the meter to be more than 2 percent fast, a refund of the \$7.50 charge shall be made and the bill adjusted accordingly.
5. Service Investigation Charge. A charge of \$7.50 per trip shall be made for service investigation if interruption of service is not caused by failure of District's facilities. Any maintenance and repair of facilities beyond District's metering point is the responsibility of the consumer.

SECTION 9 (1)

BY: CHIEF OF BUREAU
FOR THE PUBLIC SERVICE COMMISSION

I. Classification of Sewer Service for Purposes of Determining Exemptions from Sales and Use Tax.

A. Residential Classification

1. Use as a dwelling unit constituting a separate independent housekeeping establishment which is separately metered for water, connected to the sewer and occupied by one or more persons as a single housekeeping unit shall be deemed residential use. The name in which an account is established or billed is a non-determining factor and the structure to which service is to be provided may be under construction, occupied or unoccupied.
2. Agricultural use when provided through the same water meter utilized by the dwelling structure on the property and connected to the sewer shall be deemed residential use.
3. Where a water meter service is installed on property that is intended for future residential use and a sewer service connection is provided whether the customer's service line is connected initially or planned to be connected in the future, shall be deemed residential use.

B. Non-residential Classification:

1. Any use other than a residential use as defined in Section A including specifically, but not by way of limitation, industrial and business usage.
2. Mobile home parks served by a single water meter and sewer connection.
3. Multiple dwelling units within one structure when all dwelling units are served by a single water meter and sewer connection.

C. Determination of Usage

The determination of usage as to whether residential or nonresidential is based upon the principal purpose for which the water service and sewer connection is provided when it was initially installed or for which the structure is being or has been constructed until the District has been notified by the owner in writing that the purpose for which the water service was installed and sewer connection has changed.

FOR THE PUBLIC SERVICE COMMISSION

RULES AND REGULATIONS

II. Usage provided from a Sewer Connection

- A. No more than one residence, including mobile homes may connect to one sewer connection.
- B. A residence and any agricultural usage (with the exception of usage by a tenant dwelling or rental dwelling) may be supplied from the same water meter and sewer connection. A tenant dwelling or rental dwelling is considered a separate residence and must be supplied from a separate water meter and separate sewer connection.
- C. Where multiple apartment buildings under separate roofs are built on the same lot, each building must have one water meter and one sewer connection and pay the appropriate connect fees for each. However, at the discretion of the property owner, each apartment within a building may have separate water meters and sewer connections.

At the discretion of the property owner, one sewer service line may service more than one building on the same lot but should the apartment complex cease to be operated as one entity, the owner of each new lot shall install a separate sewer service line from the sewer connection on the District's sewer to the point of discharge at each apartment building.

- D. Each commercial, industrial, or any other entity must have a separate water meter and sewer connection. Excluding residential and apartment complexes, where a commercial, industrial, or other entity involves more than one structure on a single lot (lot approved by the local Planning Commission), which will be operated as one entity under one entity name, such property can be served by one water meter and one sewer connection.
 - 1. Should such property cease to be operated as one entity it will be required that separate water meters and sewer connections be paid for by the owner of each lot and the service line(s) from the meter(s) and sewer connection(s) to the point of use and discharge be installed and paid for by the respective property owner(s).

FOR THE PUBLIC SERVICE COMMISSION
RULES AND REGULATIONS

- E. Where multiple residential, commercial, industrial or other such units are under one roof, one water meter and service line and one sewer connection and service line are all that is required. If the property owner desires more than one meter and sewer connection, pays the appropriate contribution in aid of construction, and sewer connection fee and complies with the District's rules and regulations pertaining to application for service, additional meters and sewer connections may be provided.
- F. Mobile home parks on a single parcel of land, approved by the local Planning Commission as a mobile home park, are considered one business and may be served by one meter and one sewer connection.

III. City or County Resolution or Ordinance Requiring Connection to Sewer

Any City or County Resolution or Ordinance pertaining to the requirement that all homes, businesses and other establishments with the territory limits of the City or County who have sewer service available as defined in the City or County Resolution or Ordinance shall become water and sewer customers of the District and connect to the sewer system. Such customer shall be liable to the District for the District connection fee and monthly bill as set forth in the District's tariff as approved by the Public Service Commission.

IV. Maintenance of Customer's Sewer Service Line

All costs and expenses incident to the maintenance of the customers sewer service line shall be borne by the property owner, to include removal of any obstructions, except where it can be shown to the satisfaction of the District that the sewer service line has physically collapsed between where the customer's service line terminates and the District's sanitary sewer main. The costs and expense of repairing the collapsed sewer service line between where the customer's sewer line terminates and the District's sanitary sewer main will be borne by the District.

V. Sewer Billing Based on Gallons of Water Used Through Water Meter

All sewage discharged into the District's sewer system shall be billed on the sewer rate as approved by the Public Service Commission based on the gallons of water provided through the water meter.
